## History

### Past and Present

#### Transport

Students will compare and discuss how transport has evolved over the years.

They will describe how technological

advancements have impacted the quality of life and accessibility to travel around the world. Students will develop skills of historical inquiry and communication.

## Science

### Push and Pull

Students identify the forces they use in their daily lives to play and work and live. They observe and discuss the effects of gravity and how forces work in water, air and on the ground.

## Mathematics

### Number and Algebra

#### Whole Number

Apply place value, informally, to count, order, read and represent two and three-digit numbers.

Count and order Australian coins.

#### Addition and Subtraction

Use a range of strategies and informal recording methods for addition and subtraction for one- and two-digit numbers.

#### Measurement and Geometry

**Area** Use informal units to measure and estimate areas

Compare and order surfaces using informal units

**Time** Use a calendar to identify the date.

Name and order months and seasons.

Tell the time using O'clock and half hour.

**Position** Give and follow directions to position objects.

Use the terms left and right.

**Chance** Use the language of chance to communicate the element of chance in everyday events.

**Data** Collect data and track what has been counted

Create and interpret data displays using objects and pictures

#### Fractions and Decimals

Recognise, describe and represent half as one of two equal parts of whole objects, shapes and collections of a group.

#### Working Mathematically

Communicating using mathematical language

Problem Solving

Reasoning and explaining how answers are obtained
